# Introduction

- IKAR has more than 30 years of experience in the textile industry, yarn and fabrics development and sourcing.
- IKAR is manufacturing garments using seamfree technology in China and Vietnam since 2003.

IKAR's offices are strategically located world wide:

**Israel** - Management, design, R&D, technical department and customer support.

**New York** - Business Development, design, marketing and sales activity in North America.

**Germany** - Marketing and sales activities in Europe.

**China** - Technical department, Social and technical compliance, QA and engineering.

**Vietnam** - Technical department, Social and technical compliance, QA and engineering.

# About Us

IKAR is a leader in state-of-the-art apparel design and manufacturing solutions. We offer a broad range of underwear, shapewear and activewear lines.

- From the design phase through R&D, to efficient production, IKAR is a one-stop-shop for seamless apparel - right to your door.
- Our manufacturing operations are fully-vertical, with in-house design, development, knitting, dyeing and sewing capabilities.
- Experts in delivering superior quality and fit - and fully customized to meet your brand needs.
- Together with our customers we are creating winning products, from opening price point to high-end programs.
- We believe in collaborative relationships with our partners, and are passionate about creating products that will strengthen your consumers love for the brand.

# What We Offer

*Along with our proven success record, the following focus areas differentiate us from the competition:*

---

## **DESIGN**

Our designers are experts in seamless and C&S technologies. From concept to product, bringing to life innovative new ideas.

## **TECHNOLOGY**

Highly experienced textile technologists alongside the most advanced manufacturing innovations and capabilities.

## **VALUE**

We are cost-effective. We are dedicated to providing the highest quality at an affordable price.

## **SERVICE**

We own the process from early design stages through development and manufacturing.

IKAR will go the extra-mile in order to find or develop the technology and design your product requires. From attending conventions and expositions, to keeping up-to-date with the latest fashion and technology trends, we do the research.

# Sustainability

IKAR are highly invested in several sustainability areas to reduce the ecological footprint of our products and processes. We are the sustainability A-Team!

## Recycled Materials

Driving responsible material utilization and implementing the use of recycled yarns, trims and packaging.

## Facility Upgrades

One of our flagship projects for sustainability is the upgrade of dyeing machines in our factories, resulting in the reduction of water and electricity usage by more than 60%.

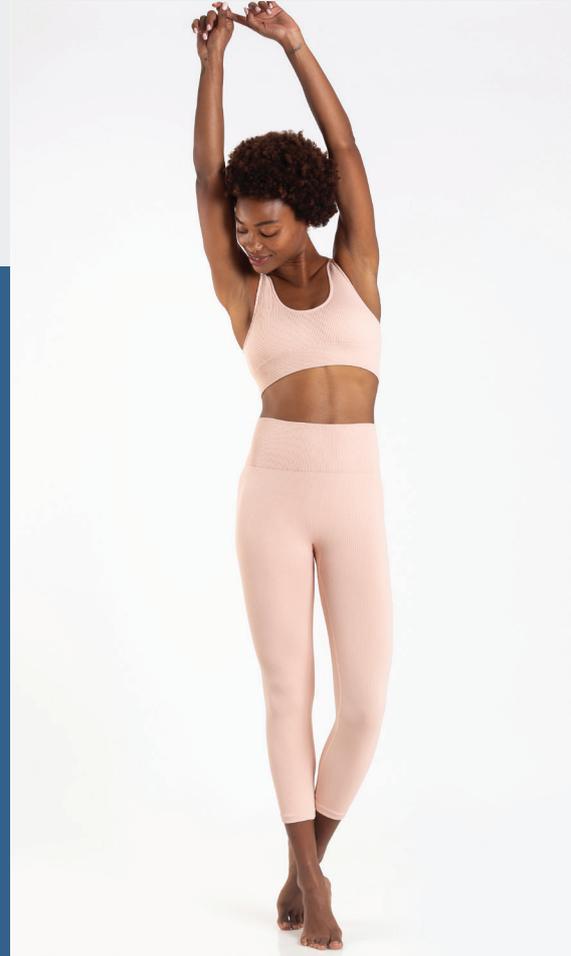

## Process Optimization

Advocating continues improvement across our supply chain and manufacturing processes in order achieve low energy consumption scores, more sustainable product and packaging and safe waste disposal.

## Best Practices

Educating our employees, integrating sustainability into our business plans and projects, and reward progress.

# Raw Material Driven

Sustainability is in the details

| <b>Main Compliances</b> |      |

# IKAR Quality System

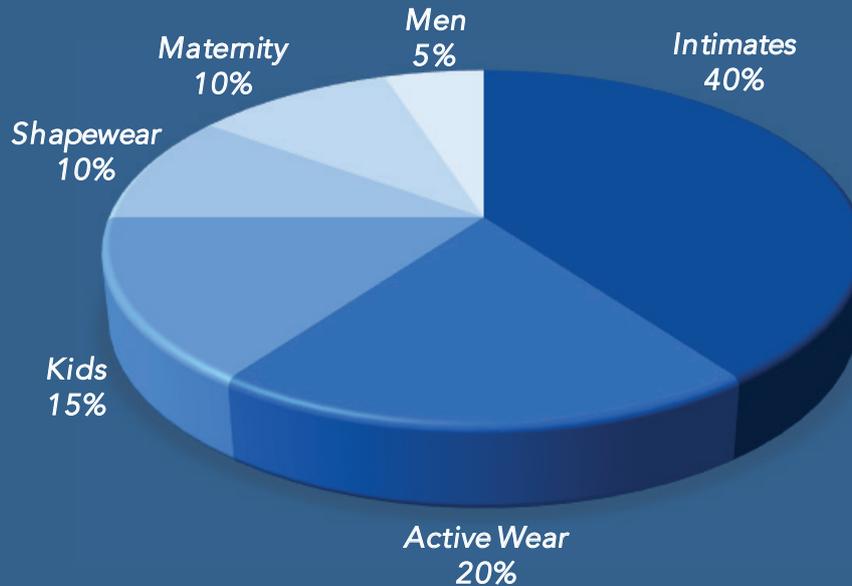

We have facilitated an end-to-end quality system across our supply chain.

Our dedicated quality assurance teams are well-embedded in the factories' everyday working protocols.

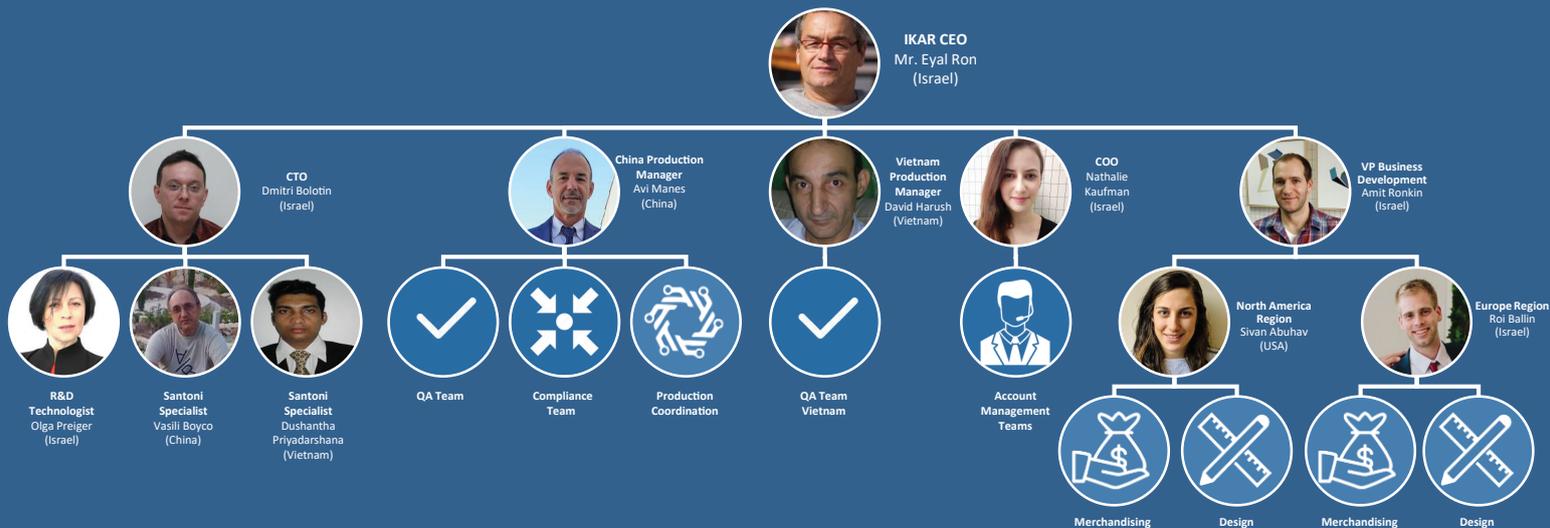

- Factory Technical Evaluation Audit – twice per year per factory
- Development/SMS/Pre-Production Samples Inspection
- Pre-Production Meeting per program
- Pilot Run Inspection (for high volume programs)
- Inline Process Inspection (Knitting/Dying/Sewing)
- Pre-Final Inspection (for high volume programs)
- Final Inspection for every PO.
- IKAR standard for POM inspection is Single Sampling Plan, Level II, A.Q.L 2.5
- IKAR standard for Visual inspection is Double Sampling Plan, Level III, A.Q.L 2.5 (Major/Minor defects separation)

| Lot Size Level  | Sample Inspection | Sample Size | Cumulative Sample Size | AQL 2.5 Pass                               | AQL 2.5 Fail |
|-----------------|-------------------|-------------|------------------------|--|--------------|
| 2 - 8           | First             | 5           | 5                      | 0 (use corresponding single sampling plan) | 1            |
|                 | Second            | N/A         | N/A                    | N/A  | N/A          |
| 9 - 15          | First             | 5           | 5                      | 0 (use corresponding single sampling plan) | 1            |
|                 | Second            | N/A         | N/A                    | N/A  | N/A          |
| 16 - 25         | First             | 5           | 5                      | 0 (use corresponding single sampling plan) | 1            |
|                 | Second            | N/A         | N/A                    | N/A  | N/A          |
