

rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping and/or countervailing duties has occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of countervailing duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results of administrative review in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5) and 19 CFR 351.213(h)(2).

Dated: August 7, 2024.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) has received requests to conduct administrative reviews of various antidumping duty (AD) and countervailing duty (CVD) orders with July anniversary dates. In accordance with Commerce's regulations, we are initiating those administrative reviews.

DATES: Applicable August 14, 2024.

FOR FURTHER INFORMATION CONTACT: Brenda E. Brown, AD/CVD Operations, Customs Liaison Unit, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230, telephone: (202) 482-4735.

SUPPLEMENTARY INFORMATION:

Background

Commerce has received timely requests, in accordance with 19 CFR 351.213(b), for administrative reviews of various AD and CVD orders with July anniversary dates.

All deadlines for the submission of various types of information, certifications, or comments or actions by Commerce discussed below refer to the number of calendar days from the applicable starting time.

Respondent Selection

In the event that Commerce limits the number of respondents for individual examination for administrative reviews initiated pursuant to requests made for the orders identified below, Commerce intends to select respondents based either on U.S. Customs and Border Protection (CBP) data for U.S. imports during the period of review (POR) or

questionnaires in which we request the quantity and value (Q&V) of sales, shipments, or exports during the POR. Where Commerce selects respondents based on CBP data, we intend to place the CBP data on the record within five days of publication of the initiation notice. Where Commerce selects respondents based on Q&V data, Commerce intends to place the Q&V questionnaire on the record of the review within five days of publication of the initiation notice. In either case, we intend to make our decision regarding respondent selection within 35 days of publication of the initiation **Federal Register** notice. Comments regarding the CBP data (and/or Q&V data (where applicable)) and respondent selection should be submitted within seven days after the placement of the CBP data/submission of the Q&V data on the record of this review. Parties wishing to submit rebuttal comments should submit those comments within five days after the deadline for the initial comments.

In the event that Commerce decides it is necessary to limit individual examination of respondents and conduct respondent selection under section 777A(c)(2) of the Tariff Act of 1930, as amended (the Act), the following guidelines regarding collapsing of companies for purposes of respondent selection will apply. In general, Commerce has found that determinations concerning whether particular companies should be "collapsed" (e.g., treated as a single entity for purposes of calculating AD rates) require a substantial amount of detailed information and analysis, which often require follow-up questions and analysis. Accordingly, Commerce will not conduct collapsing analyses at the respondent selection phase of this review and will not collapse companies at the respondent selection phase unless there has been a determination to collapse certain companies in a previous segment of this AD proceeding (e.g., investigation, administrative review, new shipper review, or changed circumstances review). For any company subject to this review, if Commerce determined, or continued to treat, that company as collapsed with others, Commerce will assume that such companies continue to operate in the same manner and will collapse them for respondent selection purposes. Otherwise, Commerce will not collapse companies for purposes of respondent selection.

Parties are requested to (a) identify which companies subject to review previously were collapsed, and (b) provide a citation to the proceeding in

which they were collapsed. Further, if companies are requested to complete the Q&V Questionnaire for purposes of respondent selection, in general, each company must report volume and value data separately for itself. Parties should not include data for any other party, even if they believe they should be treated as a single entity with that other party. If a company was collapsed with another company or companies in the most recently completed segment of this proceeding where Commerce considered collapsing that entity, complete Q&V data for that collapsed entity must be submitted.

Notice of No Sales

With respect to AD administrative reviews, we intend to rescind the review where there are no suspended entries for a company or entity under review and/or where there are no suspended entries under the company-specific case number for that company or entity. Where there may be suspended entries, if a producer or exporter named in this notice of initiation had no exports, sales, or entries during the POR, it may notify Commerce of this fact within 30 days of publication of this notice in the **Federal Register** for Commerce to consider how to treat suspended entries under that producer's or exporter's company-specific case number.

Deadline for Withdrawal of Request for Administrative Review

Pursuant to 19 CFR 351.213(d)(1), a party that has requested a review may withdraw that request within 90 days of the date of publication of the notice of initiation of the requested review. The regulation provides that Commerce may extend this time if it is reasonable to do so. Determinations by Commerce to extend the 90-day deadline will be made on a case-by-case basis.

Deadline for Particular Market Situation Allegation

Section 504 of the Trade Preferences Extension Act of 2015 amended the Act by adding the concept of a particular market situation (PMS) for purposes of constructed value under section 773(e) of the Act.¹ Section 773(e) of the Act states that "if a particular market situation exists such that the cost of materials and fabrication or other processing of any kind does not accurately reflect the cost of production in the ordinary course of trade, the administering authority may use another calculation methodology under this subtitle or any other calculation

methodology." When an interested party submits a PMS allegation pursuant to section 773(e) of the Act, Commerce will respond to such a submission consistent with 19 CFR 351.301(c)(2)(v). If Commerce finds that a PMS exists under section 773(e) of the Act, then it will modify its dumping calculations appropriately.

Neither section 773(e) of the Act nor 19 CFR 351.301(c)(2)(v) set a deadline for the submission of PMS allegations and supporting factual information. However, in order to administer section 773(e) of the Act, Commerce must receive PMS allegations and supporting factual information with enough time to consider the submission. Thus, should an interested party wish to submit a PMS allegation and supporting new factual information pursuant to section 773(e) of the Act, it must do so no later than 20 days after submission of initial responses to section D of the questionnaire.

Separate Rates

In proceedings involving non-market economy (NME) countries, Commerce begins with a rebuttable presumption that all companies within the country are subject to government control and, thus, should be assigned a single AD deposit rate. It is Commerce's policy to assign all exporters of merchandise subject to an administrative review in an NME country this single rate unless an exporter can demonstrate that it is sufficiently independent so as to be entitled to a separate rate.

To establish whether a firm is sufficiently independent from government control of its export activities to be entitled to a separate rate, Commerce analyzes each entity exporting the subject merchandise. In accordance with the separate rates criteria, Commerce assigns separate rates to companies in NME cases only if respondents can demonstrate the absence of both *de jure* and *de facto* government control over export activities.

All firms listed below that wish to qualify for separate rate status in the administrative reviews involving NME countries must complete, as appropriate, either a Separate Rate Application or Certification, as described below. In addition, all firms that wish to qualify for separate rate status in the administrative reviews of AD orders in which a Q&V Questionnaire is issued must complete, as appropriate, either a Separate Rate Application or Certification, and respond to the Q&V Questionnaire.

For these administrative reviews, in order to demonstrate separate rate

eligibility, Commerce requires entities for whom a review was requested, that were assigned a separate rate in the most recent segment of this proceeding in which they participated, to certify that they continue to meet the criteria for obtaining a separate rate. The Separate Rate Certification form will be available on Commerce's website at <https://access.trade.gov/Resources/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the certification, please follow the "Instructions for Filing the Certification" in the Separate Rate Certification. Separate Rate Certifications are due to Commerce no later than 30 calendar days after publication of this **Federal Register** notice. The deadline and requirement for submitting a Separate Rate Certification applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers who purchase and export subject merchandise to the United States.

Entities that currently do not have a separate rate from a completed segment of the proceeding² should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. In addition, companies that received a separate rate in a completed segment of the proceeding that have subsequently made changes, including, but not limited to, changes to corporate structure, acquisitions of new companies or facilities, or changes to their official company name,³ should timely file a Separate Rate Application to demonstrate eligibility for a separate rate in this proceeding. The Separate Rate Application will be available on Commerce's website at <https://access.trade.gov/Resources/nme/nme-sep-rate.html> on the date of publication of this **Federal Register** notice. In responding to the Separate Rate Application, refer to the instructions contained in the application. Separate Rate Applications are due to Commerce no later than 30 calendar days after publication of this **Federal Register** notice. The deadline and requirement

² Such entities include entities that have not participated in the proceeding, entities that were preliminarily granted a separate rate in any currently incomplete segment of the proceeding (e.g., an ongoing administrative review, new shipper review, etc.) and entities that lost their separate rate in the most recently completed segment of the proceeding in which they participated.

³ Only changes to the official company name, rather than trade names, need to be addressed via a Separate Rate Application. Information regarding new trade names may be submitted via a Separate Rate Certification.

¹ See Trade Preferences Extension Act of 2015, Public Law 114-27, 129 Stat. 362 (2015).

for submitting a Separate Rate Application applies equally to NME-owned firms, wholly foreign-owned firms, and foreign sellers that purchase and export subject merchandise to the United States.

Exporters and producers must file a timely Separate Rate Application or Certification if they want to be

considered for individual examination. Furthermore, exporters and producers who submit a Separate Rate Application or Certification and subsequently are selected as mandatory respondents will no longer be eligible for separate rate status unless they respond to all parts of the questionnaire as mandatory respondents.

Initiation of Reviews

In accordance with 19 CFR 351.221(c)(1)(i), we are initiating administrative reviews of the following AD and CVD orders and findings. We intend to issue the final results of these reviews not later than July 31, 2025.

Suspension Agreements

None.

⁷ Stainless steel sheet and strip in coils produced and exported by Inchon Iron & Steel Co., Ltd., were excluded from the order effective June 8, 1999. See *Notice of Final Determination of Sales at Less Than Fair Value: Stainless Steel Sheet and Strip in Coils from the Republic of Korea*, 64 FR 30664, 30688 (June 8, 1999). On June 28, 2002, Commerce determined that INI Steel Company is the successor-in-interest to Inchon Iron & Steel Co., Ltd. See *Stainless Steel Sheet and Strip in Coils from the Republic of Korea: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review*, 67 FR 43583 (June 28, 2002). On July 3, 2006, Commerce determined that Hyundai Steel Company is the successor-in-interest to INI Steel Company, formerly Inchon Iron and Steel Co., Ltd. See *Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review: Stainless Steel Sheet and Strip in Coils from the Republic of Korea*, 71 FR 37906 (July 3, 2006). Therefore, entries of merchandise produced and exported by Hyundai Steel Company are excluded from the AD order. This exclusion is not applicable to merchandise exported to the United States by Hyundai Steel Company in any other producer/exporter combination or by third parties that sourced subject merchandise from the excluded producer/exporter combination. Accordingly, this initiation covers merchandise: (1) produced by a third party and exported by Hyundai Steel Company; (2) produced by Hyundai Steel Company and exported by a third party; or (3) exported by a third party that sourced subject merchandise from the excluded producer/exporter combination.

⁸ On December 1, 2011, Commerce revoked the order with respect to Pohang Iron & Steel Co., Ltd. (POSCO). See *Notice of Implementation of Determination Under Section 129 of the Uruguay Round Agreements Act and Revocation of the Antidumping Duty Order on Stainless Steel Plate in Coils from the Republic of Korea; and Partial Revocation of the Antidumping Duty Order on Stainless Steel Sheet and Strip in Coils from the Republic of Korea*, 76 FR 74771, 74772 (December 1, 2011). Therefore, entries of merchandise produced and exported by POSCO are excluded from the antidumping duty order and this exclusion is not applicable to merchandise exported to the United States by POSCO in any other producer/exporter combination or by third parties that sourced subject merchandise from the excluded producer/exporter combination. Accordingly, this initiation covers merchandise: (1) produced by a third party and exported by POSCO; (2) produced by POSCO and exported by a third party; or (3) exported by a third party that sourced subject merchandise from the excluded producer/exporter combination.

⁹ In their request for review, dated July 31, 2024, the domestic interested parties, i.e., North American Stainless and Outokumpu Stainless USA,

Duty Absorption Reviews

During any administrative review covering all or part of a period falling between the first and second or third and fourth anniversary of the publication of an AD order under 19

LLC, listed this company as Chang Mien Industrial Co., Ltd. Commerce confirmed with the domestic interested parties that the name should be listed as Chang Mien Industries Co., Ltd. (Chang Mien). See Memorandum, “Clarification of Request for Review,” dated August 6, 2024. Stainless steel sheet and strip in coils produced and exported by Chang Mien were excluded from the AD order on stainless steel sheet and strip in coils from Taiwan, effective July 27, 1999. See *Notice of Antidumping Duty Order: Stainless Steel Sheet and Strip in Coils from United Kingdom, Taiwan, and South Korea*, 64 FR 40555 (July 27, 1999). Therefore, entries of merchandise produced and exported by Chang Mien are excluded from the antidumping duty order and this exclusion is not applicable to merchandise exported to the United States by Chang Mien in any other producer/exporter combination or by third parties that sourced subject merchandise from the excluded producer/exporter combination. Accordingly, this initiation covers merchandise: (1) produced by a third party and exported by Chang Mien; (2) produced by Chang Mien and exported by a third party; or (3) exported by a third party that sourced subject merchandise from the excluded producer/exporter combination.

¹⁰ Stainless steel sheet and strip in coils produced and exported by Tung Mung Development Co. Ltd. (Tung Mung) were excluded from the AD order on stainless steel sheet and strip in coils from Taiwan, effective October 16, 2002. See *Notice of Amended Final Determination in Accordance with Court Decision of the Antidumping Duty Investigation of Stainless Steel Sheet and Strip in Coils from Taiwan*, 69 FR 67311, 67312 (November 17, 2004). Therefore, entries of merchandise produced and exported by Tung Mung are excluded from the antidumping duty order and this exclusion is not applicable to merchandise exported to the United States by Tung Mung in any other producer/exporter combination or by third parties that sourced subject merchandise from the excluded producer/exporter combination. Accordingly, this initiation covers merchandise: (1) produced by a third party and exported by Tung Mung; (2) produced by Tung Mung and exported by a third party; or (3) exported by a third party that sourced subject merchandise from the excluded producer/exporter combination.

¹¹ The **Federal Register** notice announcing the opportunity to request this review inadvertently referenced the period of review as 1/1/2022–12/31/2022. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review and Join Annual Inquiry Service List*, 89 FR 54437 (July 1, 2024). We have corrected this apparent error in this initiation notice.

CFR 351.211 or a determination under 19 CFR 351.218(f)(4) to continue an order or suspended investigation (after sunset review), Commerce, if requested by a domestic interested party within 30 days of the date of publication of the notice of initiation of the review, will determine whether ADs have been absorbed by an exporter or producer subject to the review if the subject merchandise is sold in the United States through an importer that is affiliated with such exporter or producer. The request must include the name(s) of the exporter or producer for which the inquiry is requested.

Gap Period Liquidation

For the first administrative review of any order, there will be no assessment of antidumping or countervailing duties on entries of subject merchandise entered, or withdrawn from warehouse, for consumption during the relevant “gap” period of the order (i.e., the period following the expiry of provisional measures and before definitive measures were put into place), if such a gap period is applicable to the POR.

Administrative Protective Orders and Letters of Appearance

Interested parties must submit applications for disclosure under administrative protective orders in accordance with the procedures outlined in Commerce’s regulations at 19 CFR 351.305. Those procedures apply to administrative reviews included in this notice of initiation. Parties wishing to participate in any of these administrative reviews should ensure that they meet the requirements of these procedures (e.g., the filing of separate letters of appearance as discussed at 19 CFR 351.103(d)).

Factual Information Requirements

Commerce’s regulations identify five categories of factual information in 19 CFR 351.102(b)(21), which are summarized as follows: (i) evidence submitted in response to questionnaires;

(ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). These regulations require any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct. The regulations, at 19 CFR 351.301, also provide specific time limits for such factual submissions based on the type of factual information being submitted. Please review the *Final Rule*,¹² available at <https://www.govinfo.gov/content/pkg/FR-2013-07-17/pdf/2013-17045.pdf>, prior to submitting factual information in this segment. Note that Commerce has amended certain of its requirements pertaining to the service of documents in 19 CFR 351.303(f).¹³

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information using the formats provided at the end of the *Final Rule*.¹⁴ Commerce intends to reject factual submissions in any proceeding segments if the submitting party does not comply with applicable certification requirements.

Extension of Time Limits Regulation

Parties may request an extension of time limits before a time limit established under Part 351 expires, or as otherwise specified by Commerce.¹⁵ In general, an extension request will be considered untimely if it is filed after the time limit established under Part 351 expires. For submissions which are due from multiple parties simultaneously, an extension request

will be considered untimely if it is filed after 10:00 a.m. on the due date. Examples include, but are not limited to: (1) case and rebuttal briefs, filed pursuant to 19 CFR 351.309; (2) factual information to value factors under 19 CFR 351.408(c), or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2), filed pursuant to 19 CFR 351.301(c)(3) and rebuttal, clarification and correction filed pursuant to 19 CFR 351.301(c)(3)(iv); (3) comments concerning the selection of a surrogate country and surrogate values and rebuttal; (4) comments concerning CBP data; and (5) Q&V questionnaires. Under certain circumstances, Commerce may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in the letter or memorandum setting forth the deadline (including a specified time) by which extension requests must be filed to be considered timely. This policy also requires that an extension request must be made in a separate, standalone submission, and clarifies the circumstances under which Commerce will grant untimely-filed requests for the extension of time limits. BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

[Docket No. 240719–0201]

RIN 0693–XC131

Announcing Issuance of Federal Information Processing Standards (FIPS) FIPS 203, Module-Lattice-Based Key-Encapsulation Mechanism Standard, FIPS 204, Module-Lattice-Based Digital Signature Standard, and FIPS 205, Stateless Hash-Based Digital Signature Standard

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: This notice announces the Secretary of Commerce’s approval of three Federal Information Processing Standards (FIPS): FIPS 203, Module-Lattice-Based Key-Encapsulation Mechanism Standard; FIPS 204, Module-Lattice-Based Digital Signature Standard; and FIPS 205, Stateless Hash-Based Digital Signature Standard. These standards specify key establishment and digital signature schemes that are designed to resist future attacks by quantum computers, which threaten the security of current standards. The three algorithms specified in these standards are each derived from different submissions in the NIST post-quantum cryptography standardization project (see <https://csrc.nist.gov/pqc-standardization>).

DATES: FIPS 203, FIPS 204, and FIPS 205 are effective on August 14, 2024.

ADDRESSES: FIPS 203, FIPS 204, and FIPS 205 are available electronically on the NIST Computer Security Resource Center website at <https://csrc.nist.gov>. Comments that were received on the proposed changes are published electronically at <https://www.regulations.gov> and the NIST post-quantum cryptography standardization project website at <https://csrc.nist.gov/pqc-standardization>.

SUPPLEMENTARY INFORMATION: Over the past several years, there has been steady progress toward building quantum computers. The security of many commonly used public-key cryptosystems would be at risk if large-scale quantum computers were ever realized. In particular, this would
