

**Short introduction:**

We are the largest PE-foil producer/converter of Switzerland located in Andwil/SG(Headquarter) and Jona.

[www.petroplastvinora.com](http://www.petroplastvinora.com)

And I'm working in the purchasing dept. as a senior buyer.

**Situation nowadays:**

At the moment we already working together with Chinese and Malaysian suppliers.

With one Vietnamese supplier we do business as well.

My goal is to increase the cooperation with Vietnamese manufacturer of PE-foil and various kind of bags for food and household.

In this situation it would be very helpful for me if I could access on your knowledge and your business connections:

**Products:**

- Garbage bags / Bin liner, all kind of PE-films and printed or non-printed bags, shopping bags, t-shirt bags, various type of household bags, star-sealed bags
- Drawstringbags made out of CPP-cast poly propylene if possible

**Volume:**

- Between one and up to two million USD.

**Payment method**

- Normally we take fully container and pay FOB-harbor e.g. Ho Chi Minh.

Could you be so kind and work out/send me a list with several Vietnamese PE-foil manufacturer. If possible CPP-producer too.

Maybe you know their certification.

Is there an PE-foil union existing , please let me know.

Thank you very much in advance and have a nice weekend.

Kind regards

Ralf

Ralf Boss

Senior buyer
