FROM: Deborah Cohen 
International Trade Compliance Analyst
AD/CVD Operations, Office III

RE: Less-Than-Fair-Value Investigation of Crystalline Silicon
Photovoltaic Cells, Whether or Not Assembled into Modules, from
Vietnam

SUBJECT: Clarification of Q&V Questionnaire

The revised quantity and value questionnaire issued on May 20, 2024¹ included an inadvertent error in Attachment 1 in requesting that parties provide the total quantity in watts and total value (in U.S. dollars of all sales to the United States) during the period *April 1, 2023, through March 31, 2024*. We hereby clarify that the date range identified was incorrect and parties should provide the total quantity in watts and total value (in U.S. dollars of all sales to the United States) during the period of investigation otherwise referenced, *i.e.*, **October 1, 2023 through March 31, 2024**.

Should you have any questions about this matter, please contact Deborah Cohen at Deborah.Cohen@trade.gov.
