Salzburg, the 13th of March 2019

To whom it may concern:

We, Fleischmann Consult GmbH, an international active survey and consulting company based in Salzburg, Austria herewith do confirm our interest to provide our services in Vietnam and to participate in infrastructure projects in Vietnam.

*Our company is focused on railway design and topographic works as per the following Portfolio :
Site topographical works:*

- *Traverse, precise leveling, GPS, topographical survey*
- *Setting out bench Mark, check, control and monitoring topographical works*
- *Machine monitoring, tunnel, deformation measurements*

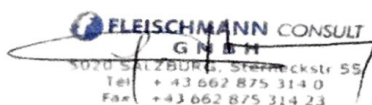

Topographical studies (EP/APS/APD):

- *Digitizing and mapping from satellite images*
- *Digital Terrain Model*
- *Scanning services (aerial, terrestrial, underground) - LIDAR*
- *Topographic survey for tramway, rail way, subway, highway, etc.*

Railway Design:

- *Feasibility and preliminary studies*
- *Detailed design*
- *Execution design for construction*
- *Detailed track design with electrification*

We would be honored to get an opportunity to present our company and its full scope of services along with reference projects to your representatives in the near future and remain with best regards,

Mr. Gernot Fleischmann, MSc.
Owner and General Manager
