EXPORT OF FALLEN LEAVES TO JAPAN

Dear Sir,

I am extremely grateful that you spared precious time for us though you were very busy when we visited you the other day.

On the captioned above, we are seriously looking for the supplier in your country who can exports fallen leaves which become one of the law materials for so-called leaf mold or humus soil.

We would appreciate it if you would introduce several companies of the responsible suppliers to us.

You will find herewith the literature about decaying leaves, a few shots of photographs and our company profile.

We have a plan to visit Vietnam for 3 days between July 22 and July 24, 2013 to conclude the said business with a responsible supplier.

You are kindly requested to make an arrangement to let us have a good meeting with the party recommended by you.

Specifications of decaying leaves to your reference as follow:

Items: Decaying leaves from any one kind of trees among lychee, Cashew or rubber.  
or mixed leaves from unspecified deciduous trees

Moisture content: Non moisture content given specifically however it is preferable within the range from 12% to 20%, or on the condition of natural drying

Pacing: In one pack of 100 liter after 1/2 compression in volume (referring to photograph)

(Packing style): 30 x 30 x 75 cm (20kg)

Country of origin: In any place inside Vietnam (No specified area)

Sincerely yours,  
TOYO SERVICE CO., LTD.
