Dear Colleagues !

Furniture factory Elegia was founded in August 1997, today five production units are concentrated on production:

- Production of upholstered furniture (the number of types of upholstered furniture is more than 150 models. The monthly volume of production in units is about 8000-9000 thousand units of upholstered furniture.

- Woodworking production (this production produces furniture boards, fuel briquettes, various furniture blanks and semi-finished products, as well as dry planed lumber.)

This production is capable of drying and processing 5000 thousand cubic meters of dry edged timber per month.

- Production of cabinet furniture (this production produces kitchens, walls, bedrooms, living rooms, nurseries) This production works with materials such as laminated chipboard, MDF, plywood and other board materials.

- Production of the dining area (in this production, tables, stools, kitchen corners, solid beds are produced.)

- Metalworking production (our production is a manufacturer of commercial equipment, sofa mechanisms and much more)

The Elegy factory is an exporter and supplies its products to countries such as South Korea, Estonia, Latvia, Lithuania, Mongolia, USA, Germany, England, France, Denmark and Kazakhstan.

Today, the Elegy Factory is considering an increase in production volumes and expresses its interest in cooperation and finding new partners.
