Hello! Our company makes polyethylene wrapping, and now we are developing a project, in consequence of which we are going to buy polypropylene laminated fabric in Vietnam. Our planned approximate capacity of purchase is 3 of 40-foot containers per year.

We need material 3921906000, whose fabric's code is 5407201900. Also we would like this fabric to be covered lamination, with white color on the outside and with black color on the inside.

We would like to ask you for help and assistance in finding of supplier of this material.

The technical document with information is attached as a separate file.
