Company Profile

The first Touchwood cots were designed and manufactured in 1988 when 2 furniture makers and soon to be fathers found that there were no well designed, well built nursery cots available on the New Zealand market.

Their unique design which was a multipurpose bassinet, cot, first bed and 2-seater sofa soon became very popular with all their friends who were also expecting new families.

With the introduction of safety standards for Australia and New Zealand, Touchwood cots became one of the first companies to have their cots fully tested for compliance and this was followed by being awarded New Zealand's prestigious "S"-Mark Certification. The Australian Standard "Tick"-Mark followed.

The first Touchwood cots were commercially manufactured in 1992. This was followed by Touchwood opening their own Wellington based factory in 1997. Touchwood has since grown to be New Zealand's largest nursery furniture manufacturer.

Touchwood in recent years has also designed a unique range of nursery cot mattresses and also a range of mattresses for children's beds.

Our company has grown significantly. We now offer not only nursery cots and change tables, but a whole range of children's beds and accompanying furniture including numerous drawer units, shelving designs and storage chests.

Having passed and exceeded the expectations of the Australian/New Zealand Safety Standards and also the European/British Safety Standards, Touchwood Cots are known to be one of the Safest Cots on the Market.

Touchwood proudly presents to you ... ***a touch of New Zealand***

Our Safety Standards

All Touchwood Safety cots comply with **AS/NZS 2172**.

They also comply with the latest **British/European Standards 716/1/2**

Our factory in New Zealand and our Shanghai based factory both have been **certified by SAI Global** and are allowed to use the **Australian Standards "Tick"-Mark**.

Compliance to the Standards has always been a very important factor for our Company.

Touchwood was one of the first companies to have all their cots tested and to obtain certification.

Our Values

The company continues to lead the way in every aspect, whether it's safety, design or quality. Touchwood's name has become synonymous with beautifully crafted, long lasting furniture that will last from one generation to the next.

All Touchwood furniture is hand-crafted using pine timber harvested from sustainable renewable New Zealand forests.

Our Cot Collection

All Touchwood Safety Cots comply with the latest Australian /New Zealand Safety Standards **AS/NZS 2172**, the latest **British/European Standards 716/1/2** and have been **certified by SAI Global**.

Available in both Bar (open-ended) and Panelled (closed-ended) options.

Our Cot Versatility Stages

All Touchwood Cots are **4-in-1 Safety Cots**, with the versatility of converting from a **Bassinet**, to a **Cot**, to a **Child's First Junior Bed** and then to a **2-seater Sofa**.

Our Nursery Collection

With an extensive range of beautiful nursery furniture and accessories, parents-to-be have the option of personalizing their dream baby's room.

Touchwood toy/storage chests feature an air-gap to prevent suffocation, and special hydraulic 'slow-close' hinges so it is impossible for a lid to slam down.

Touchwood cot mattresses are exclusively designed with inner-sprung spring system, hypo-allergenic materials, and wool pillow tops for extra comfort.

Our Furniture Collection

The classical and timeless appearance of our stunning furniture range ensures that it will take pride of place in any home.

All drawer units are manufactured using the craftsmanship of dovetailed joinery instead of glue and staples; the superiority of Touchwood construction makes it a long lasting piece of furniture.

Our Bed Collection

Beautifully hand-crafted children's beds with an optional Single Trundler Bed, complimented with an exclusive Touchwood Children's Mattress and a full range of bedroom furniture.

What makes us different?

1. MATTRESS BASE

Compare the construction of the mattress base, the size of the timber used and the distance between the slats. Note the sturdy support beam and the size of the main rails. Compare our double bolting system, which means the mattress base is firmly fitted.

2. VERTICAL BARS

Compare the way the vertical bars are located. All TouchWood cots have the vertical bars individually dowelled for added strength.

3. DROP-SIDE

Compare the drop side mechanism. Our drop-side mechanism is totally unique to TouchWood. We firmly believe in a drop side that needs to be opened with two hands, instead of the currently fashionable one-handed version.

Why? Because it is safer. It can't be opened by shaking from inside the cot, or by another child from the outside. When you have picked up your baby, we suggest you leave the drop side in the lower position, ready for your return.

We are sure that if you make these comparisons, you'll choose a TouchWood Safety Cot.

10 Reasons to buy a Touchwood...

1. All TouchWood Cot models have been tested and approved to meet and exceed the **Australian/New Zealand Safety Standard 2172** and the **British/European Safety Standard BS EN 716/1/2**.
2. All TouchWood Cots are manufactured in **certified factories**. Certified by **SAI Global**, the Australian Tick-Mark.
3. All TouchWood Cots are versatile and easily transformed from a **bassinet**, to a deep **safe cot**, a **child's first bed** and a **2-seater sofa**.
4. All TouchWood Cots are manufactured and hand crafted exclusively from **sustainable renewable New Zealand pine timber**.
5. All TouchWood Cots are manufactured to the **highest quality** and can be used for many years and in fact become a family heirloom.
6. All TouchWood Cots are very **easy to assemble**.
7. All TouchWood Cots, that have a sliding front frame, have our **unique designed drop side mechanism**.
(no plastic or breakable parts are used)
8. All TouchWood Cots, that have a sliding front frame, have our **two handed drop side mechanism**, which makes it impossible for a child to lower from inside or outside the cot.
9. All TouchWood Cots carry our comprehensive **5 Year Guarantee** against faulty materials and workmanship.
10. All TouchWood Cots are available with **exclusive TouchWood mattresses** and an **extensive range of Nursery Furniture**.

Our Website & Social Media Sites

The screenshot shows the TouchWood New Zealand website. At the top is a navigation bar with links: About Us, News, FAQ's, Support, Stockists, and Contact Us. A 'Product Search' field and a 'GC' link are also present. Below the navigation bar is a banner image of a nursery room with a wooden crib and a changing table. Text on the banner reads: 'Touchwood is dedicated to making premium quality furniture with the accent on style & versatility. Every piece of Touchwood furniture has been lovingly prepared for sale. We made our name & reputation in the design & production of quality nursery furniture... More Information »'. A circular seal on the banner says 'HAND CRAFTED NEW ZEALAND PINE SUSTAINABLE WOOD'. Below the banner is a section titled 'Why Choose Touchwood?' with a link to 'More Information'. The main content area is titled 'Our Product Collections' and features five product categories: 4 in 1 Cots, Nursery Products, Furniture, Adult Beds, and Children Beds. Each category has a representative image and a brief description. To the right of the product collections are three sidebars: 'JOIN US ON:' with social media icons, 'Product Registration' with a link to 'More Information', 'Whats New' with a link to 'View all of what's new', and 'Stockists' with a list of countries: New Zealand, Australia, United Kingdom, South Africa, and China, followed by a link to 'Distributors'. At the bottom right is a link to 'Testimonials'.
