BRAZILIAN CALENDAR OF EXHIBITIONS AND FAIRS

2013

The Brazilian Calendar of Exhibition and Fairs is a joint publication of the Department of Trade and Services Policies (DECOS), a component of the Secretariat of Trade and Services (SCS), Ministry of Development, Industry, and Foreign Trade (MDIC), and the Department of Trade and Investment Promotion (DPR) of the Ministry of External Relations (MRE). The partnership was launched through the Permanent Inter-Ministerial Working Group created by Directive N^o. 5, dated January 11, 2008.

The Calendar does not include all event organization companies or entities or all of the events taking place in Brazil. Indeed, many others of the same level of organization, professionalism, and reputation are offered each year. The participating events were incorporated in this publication by free initiative of their respective organizers.

All of the information provided in these pages is the sole and exclusive responsibility of the event organizers. Additional information may be obtained on the official sites of the individual events or the organizing companies or entities, the addresses and telephone contact information of which are provided at the end of this publication.

This publication is distributed free of charge. The information in these pages is available at www.expofeiras.gov.br and www.brasilglobalnet.gov.br.

INTRODUCTION

The Brazilian Calendar of Exhibitions and Fairs is an official publication of the Brazilian Government. Prepared annually since 1969, the Calendar lists events in a variety of sectors, indicating the broad diversity of the Brazilian economy.

A joint effort of the private and public sectors, the Calendar is organized and disseminated by the Ministry of Development, Industry, and Foreign Trade (MDIC) and the Ministry of External Relations (MRE) in a number of languages (Arabic, Spanish, French, English, Mandarin, and Russian) throughout Brazil and abroad.

Preparation of the 2013 included the creation of a new, more modern, and interactive Trade Fairs and Expositions Database www.expoFairs.gov.br. Through the system, companies and event organizers voluntarily registered and entered the information on the events listed in the 2013 edition.

Information and searches on the events entered on the Calendar's site may be viewed quickly and objectively, allowing for the identification of specific events through existing filters, such as "date," "name of event," "industry," and/or "location of event." In addition, it is possible to obtain contact information on event organizers and view and print the full Portuguese and translated versions of the electronic catalogue.

The print version of the catalogue is distributed across Brazil – event organizers, companies, Location governments, hotels, chambers of commerce, private sector business and trade associations, government agencies, convention centers, consulates, embassies, and any individual or legal entity with an interest in receiving a copy. Abroad, the catalogue is distributed primarily through Brazilian embassies and government representatives participating in international events.

The Calendar is a valuable tool for the Brazilian and foreign business community, providing a list of events capable of translating into new business opportunities. The trade shows and fairs offer the chance to learn about new technologies, develop business strategies, and boost competitiveness in the demanding global market, in addition to promoting business tourism and contributing to Brazil's economic growth.

Enjoy and good luck in your business pursuits!

INDEX BY SECTOR

Agribusiness Segment

• EFAPI	63
41 st Agriculture and Industry Expo Fair	
• EXPOAGRO AFUBRA	63
13 th Agricultural Technology, Products, and Services Expo

JANUARY

The background is a complex, abstract composition of overlapping, semi-transparent geometric shapes. It features a series of parallel lines that create a sense of depth and perspective, reminiscent of a perspective drawing of a grid or a series of planes. The colors are various shades of gray, from light to dark, creating a monochromatic but rich visual texture. The overall effect is one of modern, minimalist design.

The background is a complex, abstract composition of overlapping, semi-transparent geometric planes and lines. The color palette is monochromatic, ranging from light gray to dark gray. The planes are oriented at various angles, creating a sense of depth and movement. In the lower right quadrant, there are several sets of parallel lines that appear to recede into the distance, similar to a perspective drawing of a road or a series of steps. The overall effect is a modern, architectural, and futuristic aesthetic.

The background is a complex, abstract composition of overlapping, semi-transparent geometric shapes. It features a series of curved, parallel lines that create a sense of depth and movement, reminiscent of a stylized landscape or a futuristic architectural structure. The color palette is monochromatic, consisting of various shades of gray, from light to dark, which enhances the three-dimensional effect of the overlapping planes.

<http://www.agrishow.com.br>

Contact: info@agrishow.com.br

The background is a complex, abstract composition of overlapping, semi-transparent geometric shapes. It features a series of parallel lines that create a sense of depth and perspective, resembling a grid or a series of planes receding into the distance. The color palette is monochromatic, consisting of various shades of gray, from light to dark, which enhances the three-dimensional effect of the overlapping surfaces.

JULY

The background is a complex, abstract composition of overlapping, semi-transparent geometric shapes. It features a series of parallel lines that create a sense of depth and perspective, reminiscent of a grid or a series of planes receding into the distance. The color palette is monochromatic, consisting of various shades of gray, from light to dark, which enhances the three-dimensional effect of the overlapping surfaces.

Contact: fiam@suframa.gov.br

The background is an abstract composition of overlapping, semi-transparent geometric planes and lines in various shades of gray. The planes create a sense of depth and perspective, while the lines, particularly in the lower right, form a grid-like pattern that recedes into the distance. The overall effect is clean, modern, and architectural.
